DEAR COLLEAGUES,

The Idaho Psychiatric Association Board invites you to attend our 2020 Annual Meeting & CME Conference in Boise. We are excited to welcome two physicians from the Mayo Clinic as speakers, as well as Idaho experts. The conference will provide practical updates you can apply in your current practice, and the great opportunity for you to visit with old friends and colleagues and meet new ones.

This year's conference title is "Transgender Health Care in Idaho: Educate, Empower, Support." IPA strives to lead Idaho's medical community to promote diversity, unity, equity, inclusivity and understanding for the physician, the healthcare team and, especially, the patient.

Educational topics for this conference include:

- Diagnosis and Treatment of Gender Dysphoria
- Cross-Sex Hormones and Transgender Care in Primary Care
- Transgender Care for the Pediatric Population
- Psychiatry's Role in Working with Transgender People During Transition and Beyond
- A Physician's Journey Through Transition
- Panel Discussion: Terminology, Stigma, Fear and More

While this conference is primarily geared toward physicians and other mental healthcare providers, we also welcome students and the public. We believe that the more voices we can have in these conversations, the better. We do, after all, learn from each other.

If you are an IPA member and want to become more involved in IPA leadership, please let us know. Speak with an IPA Board member or contact our Executive Director, Molly Steckel, at molly@idmed.org. Getting involved is a great way to make a difference for your profession and your patients.

Thank you for your interest in our conference and our association. We hope you learn something and share something so that others can learn.
